Vegetable Garden Pest Control - Garden.org Vegetable garden pest control begins with basic good gardening common sense, such as choosing varieties that are resistant to pests in your region, preparing the soil well and providing regular irrigation.

Companion Planting With Vegetables and Flowers | MOTHER ... Plant associations that work well are shared among neighbors, as everyone has learned that intercropping is more efficient, reduces weed and pest pressure, and lowers the risk of crop failure. Vegetable Garden Weed Control - backyardgardenlover.com Vegetable garden weed control is one of the most important jobs on your vegetable plot. Without controlling the weeds you will not be getting the most out of your gardening efforts.. When you first start a vegetable garden, if the land is inundated with weeds, it can be disheartening. How To Control Weeds in a Vegetable Garden Before planting vegetables in the garden, you can roll out landscape fabric down the rows where the vegetable plants will be planted. The fabric should be porous and will need to be held down with "sod staples" or pins around the borders. This technique works especially well when planting on "raised" or "mounded" rows.

Companion Planting for Garden Insect Balance - The Spruce Companion planting is an age-old tradition, especially for vegetables. Itâ€™s a gardening technique that involves planting two or more plants near each other to derive some type of benefit. That benefit could be more vigorous growth, higher yield, repelling pests, or attracting the predators of common pests. Scientific research doesnâ€™t always agree with the folklore of companion planting, but at the very least it adds diversity in the garden, which itself may cut back on problems. Companion Planting Guide | Planet Natural Gardens that use raised beds, wide rows, or intensive square foot gardening methods make natural candidates for companion planting. It is also a natural ally for organic gardeners, since much companion planting is designed to control pests. Planting Schedules - Urban Farmer Seeds Knowing when to plant vegetables in your state is important. Most states have a few hardiness zones that can vary drastically in planting schedules. Most of the United States is covered in zones 3-9. If you know your zone then just select it below to see your vegetable planting calendar.
